Caitlin Testimonials

I'm also a Caitlin and (until now) haven't met anyone else who's spelled the name correctly. I also have the constant misspell issues. The worst is when they're looking right at something with your name on it (ID, Driver's license, etc.)...

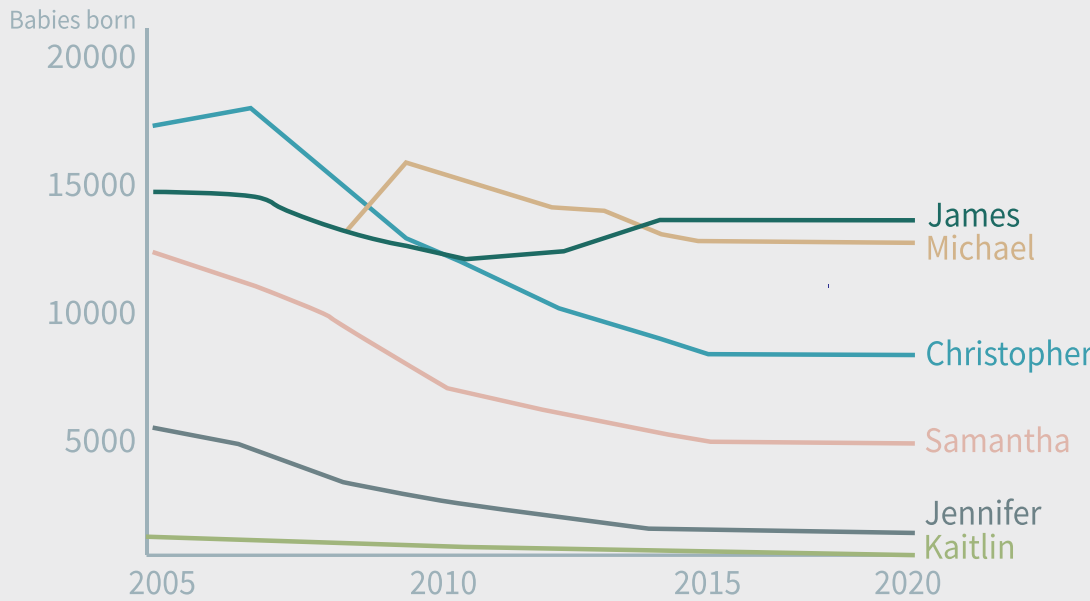

... I love my name, always have. It's nice not to be an 'Ashley' or a 'Brittany' and have them in one class.

My name is Caitlin and I agree it is very annoying when people spell it incorrectly. I have gotten Kaitlin, Caitlyn, Katelyn, Catlin, Kaitlyn, the only way people never guess is Caitlin, the way I spell it.

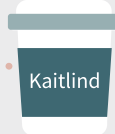

I love my name. I pronounce my name KAHT-leen though...the gaelic way. I was part of the 'Caitlin' boom of 1988...there are lots of us from that year. It was one of the most popular names of the late 80's.

Everyone wants to spell my name with a k or a y ... i dont see how people could even begin to spell it that way when its spelled caitlin even my friends call me cat i'm not an animal.
